Cancelations Due to Inclement Weather

Should weather conditions create potentially hazardous conditions, Lindenwood University (LU) will evaluate the situation and take into consideration the safety of faculty, staff, and students as well as the services that must be provided despite the inclement weather. After this careful evaluation and depending on the hazardous weather conditions (e.g., tornado, snow/ice, etc.), an alert will be sent to applicable students, faculty, and staff via a Rave system text message and Lionmail, as necessary. This alert will detail the appropriate action required of faculty, staff, and students as well as essential services that must be provided despite the occurrence of inclement weather.

In the unlikely event that LU alters the normal work and/or class schedule, an announcement will be posted on the University’s homepage (lindenwood.edu and belleville.lindenwood.edu). An announcement will also be distributed via Lionmail, the Rave system, and local media stations or whatever is deemed most appropriate for the weather conditions.

Separate announcements may be made regarding evening classes, where evening classes are defined as those classes starting at or after 4 p.m.

Only the President (or, in the President’s absence, the Provost or Associate Provost) has the authority to cancel classes in the event of severe weather. The University maintains its teaching, research, and service activities in accordance with established schedules and operational demands. To this end, suspension or cancellation of classes due to inclement weather will be avoided whenever possible. Because certain essential functions of the University must be provided at all times, campus operations will not be suspended in the event of severe weather even though classes may be canceled.

Federal Financial Aid

Federal Pell Grant Program

Eligibility is determined by the Pell Grant processor and is based on a student’s Estimated Family Contribution (EFC). The student must submit the Free Application for Federal Student Aid (FAFSA) and request that pertinent financial data be sent to the Pell Grant processing agency for determination of eligibility. The results are forwarded to the student in the form of a Student Aid Report (SAR) Electronic filing results will be sent directly to the institution in the form of an Institutional Student Information Record (ISIR). Pell Grant eligibility is limited to six full-time years.

Federal Supplemental Equal Opportunity Grant (FSEOG)

Eligibility for this grant depends upon the extent of a family’s inability to pay the educational costs, which is determined by an analysis of the family’s financial situation, as reflected on the Student Aid Reports.

Federal Work-Study Program (FWS)

This program provides work opportunity for needy students. Eligibility is dependent upon the extent of financial need, as determined by an analysis of the FAFSA. If a student is awarded work-study funds as part of the financial aid package, that student may seek employment on campus. Ordinarily a student will work 10 hours per week while attending school. Wages are \$8 per hour.

Federal Loan Programs/Direct Subsidized Federal Stafford Loan

The federal government guarantees loans from \$3,500 to \$5,500 for eligible undergraduates. These loans are made by the Department of Education and interest is subsidized.

Eligible Stafford Borrower Limits

Undergraduate Study

1st year of study	\$3,500/academic year
2nd year of study	\$4,500/academic/year
3rd, 4th & 5th years of study	\$5,500/academic year
Cumulative limit	\$23,000

For undergraduate borrowers who have loans that were originated between July 1, 2014, and June 30, 2015, the interest rate on the Stafford Loan is fixed at **4.66** percent. Students must file the FAFSA to determine eligibility for a Stafford Loan.

Beginning July 1, 2013, subsidized loan eligibility is limited for first-time borrowers to 150% of the length of the borrower's educational program.

Unsubsidized Federal Stafford Loan

Students who meet the eligibility requirements under section 484 of the Higher Education Amendments and who do not qualify for interest subsidies under the Stafford Loan program may borrow under the Unsubsidized Stafford Loan program. Like the Federal Subsidized Stafford Loan program, the Unsubsidized Stafford Loan is available to all eligible students, and students must complete a valid need analysis.

Unsubsidized Stafford Loans are not need based; interest accruing on the loan is not subsidized (or paid) by the federal government while the student is in school. Students must therefore pay the interest payments while in school or allow the interest to capitalize.

Federal Parent Loans (FPLUS)

Parents may borrow for dependent undergraduate or dependent graduate and professional students. The maximum amount a parent may borrow on behalf of each eligible student is limited to the cost of education, less financial aid. These loan limits do not include amounts borrowed by a student under the FSL programs. FPLUS loans do not qualify for interest subsidy. The FPLUS interest rate for a loan originated between July 1, 2014, and June 30, 2015, is fixed at **7.21** percent.

Unsubsidized Loan (Formerly SLS)

Unsubsidized loans to dependent students provide for a maximum of \$2,000 per year for undergraduate study, with an aggregate loan limit of \$8,000. Independent students can borrow \$6,000 per year for the first two years of study and \$7,000 per year for the third or subsequent years, with an aggregate loan limit of \$31,000. Graduate students can borrow up to \$20,500 per year with an aggregate loan limit of \$138,500.

Loans made under the unsubsidized loan program are not eligible for interest subsidy. Students must therefore pay this interest payment while in school, or allow the interest to capitalize. The interest rate for a loan originated between July 1, 2014 and June 30, 2015 is fixed at **4.66** percent

Academic Dishonesty

Academic dishonesty is an exceptionally serious offense to oneself and one's colleagues given that "the fabric of a learning community is woven by a bond of trust [which assumes that] the work to which we affix our names is our

own." To act in such a way that compromises this trust is to "undermine the contract of good faith on which productive study and the open exchange of ideas is based." Therefore, students wishing to maintain formal membership in the Lindenwood learning community must display the high level of integrity expected of all its members.

According to Lindenwood University Academic Honesty policy, names of students found guilty of cheating, plagiarizing, or deception (including lying) will be sent to the office of the University Associate Provost. A first offense of academic dishonesty may result in a reduced or failing grade on the work/test or failure of the course. **Upon a first report of dishonesty, the student is also required to complete an online academic integrity tutorial. A charge for the tutorial will be applied to the student's Business Office account.** For undergraduate students, a second offense will lead to failure of the class, and a third offense will result in expulsion from the university. Graduate students will be expelled after a second offense is reported.

Any questions concerning this policy should be directed to the Associate Provost, **who maintains a confidential record of academic dishonesty reports. These records are accessible only to the Provost and Associate Provost and are not linked to the student's academic or financial records at the University.**

Revision to page 26 is shown in red below:

Grading System

Lindenwood University operates under the 4.0 grading system. The grade point average is computed by dividing the total number of quality points earned by the total number of semester hours attempted. An A carries 4 quality points; thus, a course worth three semester hours in which a student earned an A would merit a total of 12 quality points. A grade of B carries 3 quality points; a grade of C carries 2 quality points; and a grade of D carries 1 quality point. A grade of F or AF (attendance failure) carries no quality points and no credit. Only grades earned at Lindenwood are used in computing the GPA.

A grade of A represents work of outstanding quality; it indicates that the student has shown initiative, skill, and thoroughness and has displayed originality in thinking. A grade of B is awarded for work of high quality, well above average. The grade of C indicates average work and satisfactory completion of course requirements. The grade of D indicates minimally satisfactory completion of course requirements. A grade of F or AF indicates that one's coursework is unsatisfactory, and no credit is given.

Note: The grades AH and BH indicate that the student completed the course for honors credit.

Revision to page 34 is shown in red below:

Online Courses

In an online course, 100% of course instruction is delivered using an online learning management system platform. There is no time spent in a physical classroom. In some cases, students may meet for an introductory and/or summary meeting; however, these meetings are not mandatory.

Semester undergraduate students are limited to taking one online class per semester, except for those students enrolled in

the Early Access MBA program or any program offered entirely online.

Students enrolled in online classes will be expected to participate in the class academically. Attendance for this method of instruction is defined as submitting an academic assignment, taking an exam, participating in an online discussion about academic matters, or initiating contact with a faculty member to ask a question about the academic subject studied in the course. Simply logging into an online class without active participation does not constitute academic attendance.

Hybrid Courses

A hybrid course is a method of instruction in which 75% or more of the course is taught using a learning management system platform. Time in the classroom is reduced but not eliminated.

Semi-Hybrid Courses

A semi-hybrid course is a method of instruction in which less than 75% of the course is taught using a learning management system platform. Time in the classroom is reduced but not eliminated.

Christian Ministry Studies Department

Dr. Timothy Gibson, Chair

Students in the Christian Ministry Studies program earn a Bachelor of Arts in Christian Ministry Studies and are eligible to earn a minor in Religion. Students will work with the Department of Religion to coordinate the minor with the expectation that the coursework for the minor will include REL 15000, REL 20200, REL 21000, REL 21100, REL 30000 and REL 32600. Students **who** desire to earn the Religion minor must: 1) complete CMS 31100; 2) declare a minor in religion; and 3) secure an advisor in the Religion Department for the religion minor.

This program is designed for students who sense or desire to explore a call to Christian ministry to serve in a church, parachurch, civil or military chaplaincy, denominational setting, or faith based organization. It is also beneficial for students who want a thorough knowledge of the Bible, theology, and practical ministry training as preparation for seminary or graduate study.

The CMS program offers a general CMS degree and a CMS degree with three options for an emphasis. Namely, students may earn a CMS degree with a Nonprofit Administration emphasis, a CMS degree with a Youth Ministry emphasis and a CMS degree with a Recreation Administration emphasis.

General Recreation Emphasis

24 credit hours

The general recreation emphasis is fulfilled when a student completes 24 credit hours of coursework selected from among the following departments, selected based on the student's interests and career goals: Accounting (ACCT), Art (ART), American Studies (AST), **Biological Sciences (BSC)**, Criminal Justice (CJ), Christian Ministries Studies (CMS),

Communications (COM), Dance (DAN), Earth Sciences (ESC), Education (EDU), Exercise Science (EXS), Human Resource Management (HRM), Management (MGMT), Management Information Systems (MIS), Marketing (MRKT), Music (MUS), Nonprofit Administration (NPA), Physical Education (PE), Public Administration (PS), Psychology (PSY), Recreation Administration (REC), Sociology (SOC), Sport Management (SPMGT), Social Work (SW), and/or Theater (TA). Selection of courses should be in consultation with the student's advisor and may all be in one discipline or several. It is strongly recommended to complete a minor in one of the disciplines above for partial fulfillment of the general recreation emphasis.

HEALTH AND FITNESS MANAGEMENT MINOR

30 credit hours

Requirements

Core requirements:

EXS 25000	Foundations of Sport and Exercise Science
EXS 33000	Current Issues in Exercise Science
MRKT 35010	Principles of Marketing
SPMGT 27020	Orientation to Sport Management
MGMT 26061	Business Law I

Students must choose five courses from these electives:

ACCT 21010	Principles of Financial Accounting
or ECON 23010	Survey of Economics
MGMT 36050	Organizational Behavior
HRM 36510	Human Resource Management
HRM 36530	Employee Training and Development
HRM 36540	Employment Law
MGMT 26032	Principles of Management
MIS 24000	Introduction to Information Systems
MIS 21400	Excel for Professionals
SPMGT 37040	Sport Marketing and Promotion
SPMGT 37050	Event Management

Note: Prerequisite coursework may be required for some of the courses listed above.

OUTDOOR LEADERSHIP MINOR

18 credit hours

Requirements

Students must complete the following courses:

REC 11300	Wilderness Survival
REC 12500	Land Navigation
REC 20300	Adventure Education and Leadership
REC 37000	High Adventure Leadership Training

One of the following:

REC 32500	Outdoor Recreation and Leadership
REC 32600	Outdoor Education
REC 37000	High Adventure Leadership Training

EDU 40400 Advanced Measurement and Evaluation to Enhance Learning (3) This course is designed so that students experience practical approaches to ensure that classroom assessment is fair and effective. Students will explore curriculum mapping and alignment to standards as well as assumptions about educational assessment. Students will learn about the basic mathematics of measurement; item analysis; test score interpretation; steps in developing appropriate classroom tests and assessments; performance assessments; portfolios; assigning grades on the basis of classroom assessments; standardized testing; assessing to meet the needs of diverse classroom populations; biases in educational assessment; and self-assessment. Students will utilize self-reflection as a means of self-assessment and to improve classroom practices. This course will include a coordinated project between the teacher candidate and the teacher mentor that will explore data driven decision making as a means of enhancing student learning. This course is a writing intensive course for the Department of Teacher Education. Prerequisite: EDU 21501, (EDU 32100 or EDU 32200), and Writing Proficiency Assessment (WPA) or ENG 21000. Offered fall and spring semesters. Note: As of fall 2013, EDU 40400 will be a Prerequisite for EDU 41000.

Addition to page 232 is shown in red below:

FD 48800 - Senior Collection II (3) This course (a continuation of FD 48700), students fabricate their designs. Industry standard construction techniques are applied in the execution of the final collection, while portfolio quality presentation boards support the collection. Studio fee required. Prerequisite: FD 48700. Offered spring semester only.

Revisions to page 263 are shown in red below:

NUR 33000 - Research and Evidence Based Practice (3)

This course provides an introduction to the research process and evidence-based practice methodology. Students will learn how to apply evidence-based practice methodology and utilize research in the clinical setting to improve patient outcomes. The application of science to clinical reasoning, clinical judgment, and interdisciplinary research collaboration will be addressed. The ethical conduct of research and scholarship will be discussed. Contributions to research and evidence-based practice in improving patient care and outcomes will be studied. Prerequisite: C or better in both MTH 14100 and (NUR 31000 or AHS 32000).

NUR 35000 - Healthcare Policy and Finance (3)

This course provides an overview of policies that drive systems of health care in the United States. The impact of health care policy,

organization, and financing on patient outcomes of cost, quality, and access will be surveyed. The role of the baccalaureate level professional nurse in influencing and employing policy to improve health care delivery will be identified and explored. Prerequisite: admission to Nursing program or Allied Health Leadership program.

NUR 37000 - Patient Safety and Quality (3)

This course gives the student foundational knowledge in patient safety, risk management and quality improvement science. The impact of system vulnerabilities on patient outcomes will be explored, and institutional responses to adverse events will be reviewed. Students will learn about models for improving patient safety in hospitals and other health care institutions. Students will learn how to conduct an incident investigation, appreciate the advantages and limitations of error reporting, and learn principles involved in disclosing errors and adverse events. The importance of interdisciplinary teamwork and communication in creating and sustaining a culture of safety will be explored. The role of the healthcare professional in contributing to a culture of safety will be identified and examined. Prerequisite: C or better in NUR 31000 or AHS 32000.

NUR 37500 - Introduction to Health Informatics (3)

This course will provide students with an introduction to health informatics, including the interdisciplinary study of the design, development, adoption and application of IT-based innovations in health care services delivery, management and planning. Students will learn foundational concepts of health informatics including theoretical foundations of informatics; information systems in health care delivery; participatory health care and quality; usability and standards in health informatics; governance and organizational structures for health informatics; and future directions for the science and profession. Prerequisite: C or better in NUR 31000 or AHS 32000.

NUR 37900 - Nursing Genomics (3)

Genomics is quickly advancing the health care arena as scientists discover how genes interact to affect health. This online course is intended to give nursing students a beginning knowledge of genomics in healthcare. The eight modules take the student from the significance of the Human Genome Project, to a review of genetics and genomics, through application of genomics in nursing, to an understanding of pharmacogenomics, ethical issues and it concludes with a module on genetic testing. The course material is based on the core competencies identified in the American Nurses Association's Essentials of Genetic and Genomic Nursing: Competencies, Curricula Guidelines, and Outcome Indicators, 2nd Edition (2009). Prerequisite: C or better in NUR 31000 or AHS 32000.

NUR 38200 - Epidemiology (3)

Epidemiology is the science of identifying causal factors that can be modified or eliminated in order to prevent or control adverse outcomes in human populations. The course will provide an introduction to basic epidemiologic principles and methods including measures of disease/outcome frequency, disease/outcome distribution, disease/outcome surveillance, measures of association, causal inference, and epidemiologic study design. Health management and clinical applications of epidemiology will be explored. Students will have the opportunity to apply epidemiologic methodology to evaluate the effectiveness of a health management or clinical issue. Prerequisite: C or better in both MTH 14100 and NUR 31000 or AHS 32000.

NUR 38300 - Population-Based Maternal and Child Health (3)

The purpose of this course is to provide an overview of issues and trends in maternal and child health for nurses and other professionals working with women and children. The history and theoretical underpinnings of maternal and child health will be introduced. Selected preconception, reproductive, perinatal, infant, child and adolescent health issues such as infant mortality, preterm birth, autism, childhood obesity, asthma, and lead poisoning will be

analyzed within the context of the Life Course Perspective to health needs. The impact of environment, social structure, and maternal and child health policies and programs on morbidity, mortality and health disparities in women and children will be studied. Prerequisite: **NUR 31000** or **AHS 32000**. Offered intermittently.

Revision to pages 280-281 are shown in red below:

REL 32600 - Faith and Reason (3)

(GE-Phl-Rel) This course examines the relationship between faith and reason in Western intellectual traditions. Students will read widely in these traditions to develop their own sense of the whole, while discussion will include topics such as: the place of reason in religious discourse; scriptural reasoning; the relationship between faith, reason, and moral action; the contrast between reason and revelation as sources of knowledge; modern philosophy of religion; and the future of religious belief in a secular age. Prerequisite: ENG 17000 or HIS 10000 or three credit hours of philosophy (PHL 10200 or higher) or three credit hours of religion (REL 15000 or higher) or permission of dean. Offered spring semester of even numbered years.

REL 47500-47599 - Advanced Study-Aquinas (5)

The courses are offered at Aquinas Institute of Theology. See the Department of Religion faculty for specific information. Advanced Study offered every semester. Prerequisite: REL 15000, REL 20100, REL 20200, REL 32600, REL 33500, ENG 17000 with a C or better, junior or senior standing, 3.0 GPA, and permission of the dean.

New degree program is described below.

ALLIED HEALTH LEADERSHIP BS

53 credit hours

The Allied Health Leadership program is designed to meet the needs of allied health professionals who want to advance their educational preparation to a Bachelor of Science degree. The program is intended for students who have completed or are completing an associate of science or applied science in an allied health discipline who want to pursue leadership opportunities in their respective allied health fields. The proposed curriculum builds on the professional knowledge and skills gained through the associate degree to develop professional healthcare practice and leadership expertise. The

curriculum delivers a broad understanding of the healthcare environment and emphasizes the role of the healthcare professional in delivering high quality care aimed at optimal patient outcomes.

The undergraduate allied health leadership program will prepare allied health professionals to:

- Evaluate the provision of health care through synthesis of prior learning and environmental influences on patient outcomes.
- Utilize evidence-based practice to promote health, prevent disease, and manage illness for individuals, families, communities, and populations.
- Interpret the influences of patient safety, health policy, and finance on or within healthcare delivery systems.
- Demonstrate leadership, management, and communication skills in decision making, delegation, and interdisciplinary collaboration to provide safe, coordinated, high quality care.
- Demonstrate a commitment to lifelong learning and professional development.

AHS 32000 Allied Health Professionalism in a Transforming Healthcare System (3) This course introduces the student to the expanded expectations of the allied health professional in a transforming healthcare system. Topics in the course will include an introduction to the concepts and proficiencies essential to the baccalaureate prepared allied health professional. Competencies and skills introduced will

include leadership, professionalism, interdisciplinary practice, communication, and collaboration. Additional course topics will guide the student's educational experience within the allied health major.

AHS 34000 Health Care Law and Ethics (3) This course presents an overview of legal and ethical issues facing healthcare professionals. It provides students with a foundation of health law and ethics and reviews a wide variety of healthcare legal and ethical situations. Course content includes ethical theories and principles, contemporary ethical dilemmas in healthcare, legal aspects for selected healthcare situations, inter-professional roles within ethics committees, and patients' rights and responsibilities. Students will discuss legal and ethical issues to explore personal values, increase sensitivity to others and develop ethical reasoning abilities.

AHS 38400, Health Literacy (3) This course introduces the student to the topic of health literacy. Students will examine the issues surrounding health literacy and the impact of health literacy on health outcomes and access to quality healthcare. Topics in the course will include communication strategies and styles, health literacy assessment techniques, research, and practical tools for implementing plain language to improve health literacy. Students will explore health literacy from an interprofessional perspective and discuss opportunities for collaboration to enhance health literacy. Emphasis will be placed on implementation and application of health literacy concepts.

AHS 38600, Complementary and Alternative Medicine (3) This course provides an overview of complementary and alternative medicine (CAM) health practices now being utilized by a growing number of health-care consumers who are seeking alternatives to traditional healthcare. Selected CAM therapies, practices, and their relationship to traditional Western medicine will be discussed. Students will review current trends in CAM, CAM research initiatives, and the healthcare consumer implications such as health insurance and scams related to CAM. Utilizing an interprofessional perspective, students will explore the mind-body basis for many CAM modalities and how to incorporate CAM into holistic healthcare to a culturally and ethnically diverse healthcare patient population.

AHS 44000 Healthcare Supervision and Management (3) This course prepares the health professional to move into a supervisory or management role within the healthcare setting. The course will engage students in the functions of healthcare management, which include planning, organizing, directing, coordinating, and controlling. The course will include principles of supervision and management, authority and responsibility and effective communication. Employee selection, training, performance evaluation, and disciplinary action will be explored.

AHS 46000 Healthcare Leadership and Organizational Behavior (6) This course prepares the allied health professional to coordinate care, lead teams, and demonstrate high level decision making within diverse healthcare settings. Course content examines the many aspects of leadership and organizational behavior, such as leadership theory, individuals' perceptions and attitudes, diversity, communication, motivation, power, stress, conflict management, negotiation models, group dynamics, team building, and managing organizational change. The course will discuss leadership models, behavior, and strategic planning at various organizational levels. Students will learn concepts of organizational structure, healthcare delivery systems, and change management.

AHS 48000 Allied Health Capstone (3) This course is designed for students to assimilate and integrate knowledge and skills from their allied health and general education coursework through a capstone project. Students will work with Lindenwood University SONAHS faculty to develop and plan the implementation and evaluation of a project to lead a change initiative aimed at improving health outcomes and/or allied health practice in the healthcare environment. Elements of the course and project will emphasize healthcare professionalism, evidence based practice, safety and quality, health policy, management, and leadership in the transition to professional allied health practice in a transforming healthcare environment. In addition, each student will complete a portfolio outlining professional growth throughout the program and include identification of goals for continued growth and lifelong learning.
