The first step in choosing a roommate is to sign the Roommate Bill of Rights. This lays out basic rights that each residential student has on campus. Acknowledgment and agreement to these rights is required for students wanting to live on campus.

You will prove that you have read and understand these rights by typing your signature. When this is done, select “Continue”.
The next page is where you can search for roommates by details or profiles and look at suggested roommates. You will also be able to see if you are already in a roommate group.

Roommate Groups
You can search for possible roommates and invite them to room with you or you can accept random selection based on your profile.

Please note that roommate requests, and all selectable housing options, must be mutual to be honored. While we try to accommodate preferences, not all requests can be honored.

You are NOT required to choose a preferred roommate. If you do not have a roommate request, you can proceed to Save and Continue at the bottom of the page, or use the menu options at the top of the page to proceed.

Not In a Group
You are not a member of any roommate groups.

Search for Roommates by Details
Search for Roommates by Profiles
Suggest Roommates

If you already know who you would like to room with, use the "Search by details" option to search for them using their screen name. Once you click search, their name will pop up and you will be able to add to group. This page also gives you the option to search for roommates based on age and gender.
To search for roommates based off of the profile questions you answered earlier in the application, use the "Search for roommates by profile questions" option.

Suggested Roommates will show you potential roommates based off of the profile questions. StarRez will automatically calculate your percent match with other students.

If you choose to message a potential roommate(s), click "Send Message" by their profile information. This option will send the student a message to their portal as well as their student email.
Once you have found a roommate, add them to your group by searching their web details.

Once you have requested a roommate, they will show up under the "Roommate Groups" page. There will be one person who is the GROUP LEADER and is the only one that can assign the rooms. To make someone else the group leader, the group leader will look on the "Roommate Groups" page and click "Make a Leader" to confirm.

Now that you have everyone in your group, please click "Verify Group" to confirm.
Next, move forward to your room selection page. The group leader will then "Add to Cart" the room that they would like to assign everyone to.

Your last step is to use the drop down to select the bed to each roommate. Click "Assign Beds" and then continue with your application.
