DEFINITION

Internships are available and provide the opportunity for students to obtain academic credits through an out-of-classroom experience.

**APPLICATION/
REGISTRATION**

Applying for an internship is the joint responsibility of the student and faculty advisor with approval by the Dean of the School of Business and Entrepreneurship.

PROCEDURES

Initially, the student states an interest or makes a specific request to his or her faculty advisor, who determines eligibility. This step should be taken at least four weeks before the semester begins. At the same time, the student must present to the Registrar an Academic Verification Form, to verify GPA and number of hours completed. Next, the faculty advisor and student meet to discuss the type of internship needed, the number of academic credits and the work hours required, the goals and objectives, and a potential employer.

NOTE: When an international student applies for an internship, the faculty advisor should immediately notify the International Student Advisor. Advance arrangements may be necessary to obtain the required approval from the Office of Immigration and Naturalization Service.

The student is required to compile a resume. This is to be presented to the employer when the student interviews for the internship position with a copy attached to the internship contract. When an internship is established, the student and employer sign an informal contract outlining the job description, hours/days to be worked, and the beginning and ending dates for the internship.

A professor may contact the student's supervisor during the semester to review the work being completed in the internship. During the course of the internship, a student will be required to complete assignments, which support the internship experience. Weekly communication through submitted assignments will be turned in using the University's Learning Management System. The supervisor is also asked to complete an Internship Evaluation Form, which is returned to the professor for grading purposes. The supervisor evaluation form must be received before the grade of P (Pass) or F (Fail) is posted. A copy of all paperwork relating to the internship is to be kept on file in the student's advising file.

GUIDELINES

The minimum number of academic credit hours that may be earned for an internship during a semester is one; the maximum is three. In the great majority of cases, students complete only one internship during their degree program, earning three credit hours. Students who desire to complete additional internships must make separate application and the additional internships must be different in nature and purpose, and preferably with a different employer. In any event the total number of credits may not exceed nine for the duration of the student's degree program. The internship credit-hours will be earned accordingly: **50 work hours (1 credit), 100 work hours (2 credits), and 150 work hours (3credits).**

Students must communicate weekly with the professor. Internships are graded on the basis of pass/fail. In these cases, the grade of P denotes successful completion of the assigned requirements for the aforementioned academic activity courses.

QUALIFICATIONS

An intern must meet the following requirements:

1. Completed 18 hours of graduate coursework
2. Graduate students may only complete 1 internship for credit
3. Cumulative GPA of 3.3 or higher
4. Job description approval from emphasis area department chair

Students who do not meet the requirements may petition for a policy exemption in order to participate in an internship. The student's academic advisor must review such a petition before being submitted to the Dean of the School of Business and Entrepreneurship for action.
