2026 Administrative Wireless Upgrade

Faster, stronger campus connectivity coming May 2026.

Bridging the Campus Connectivity Gap

Current State

Future State (May 2026)
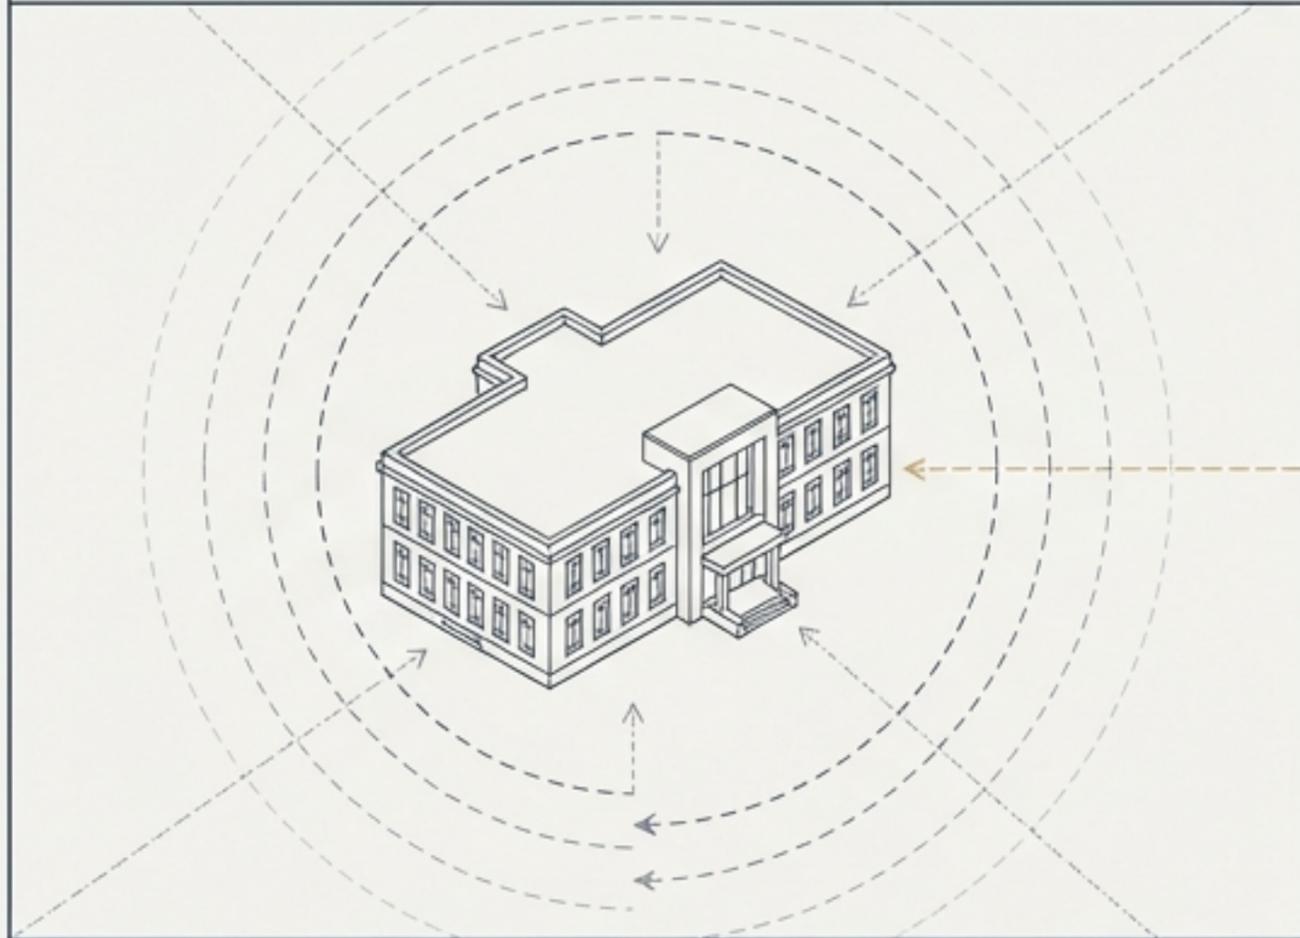

Residential & Off-Campus Network
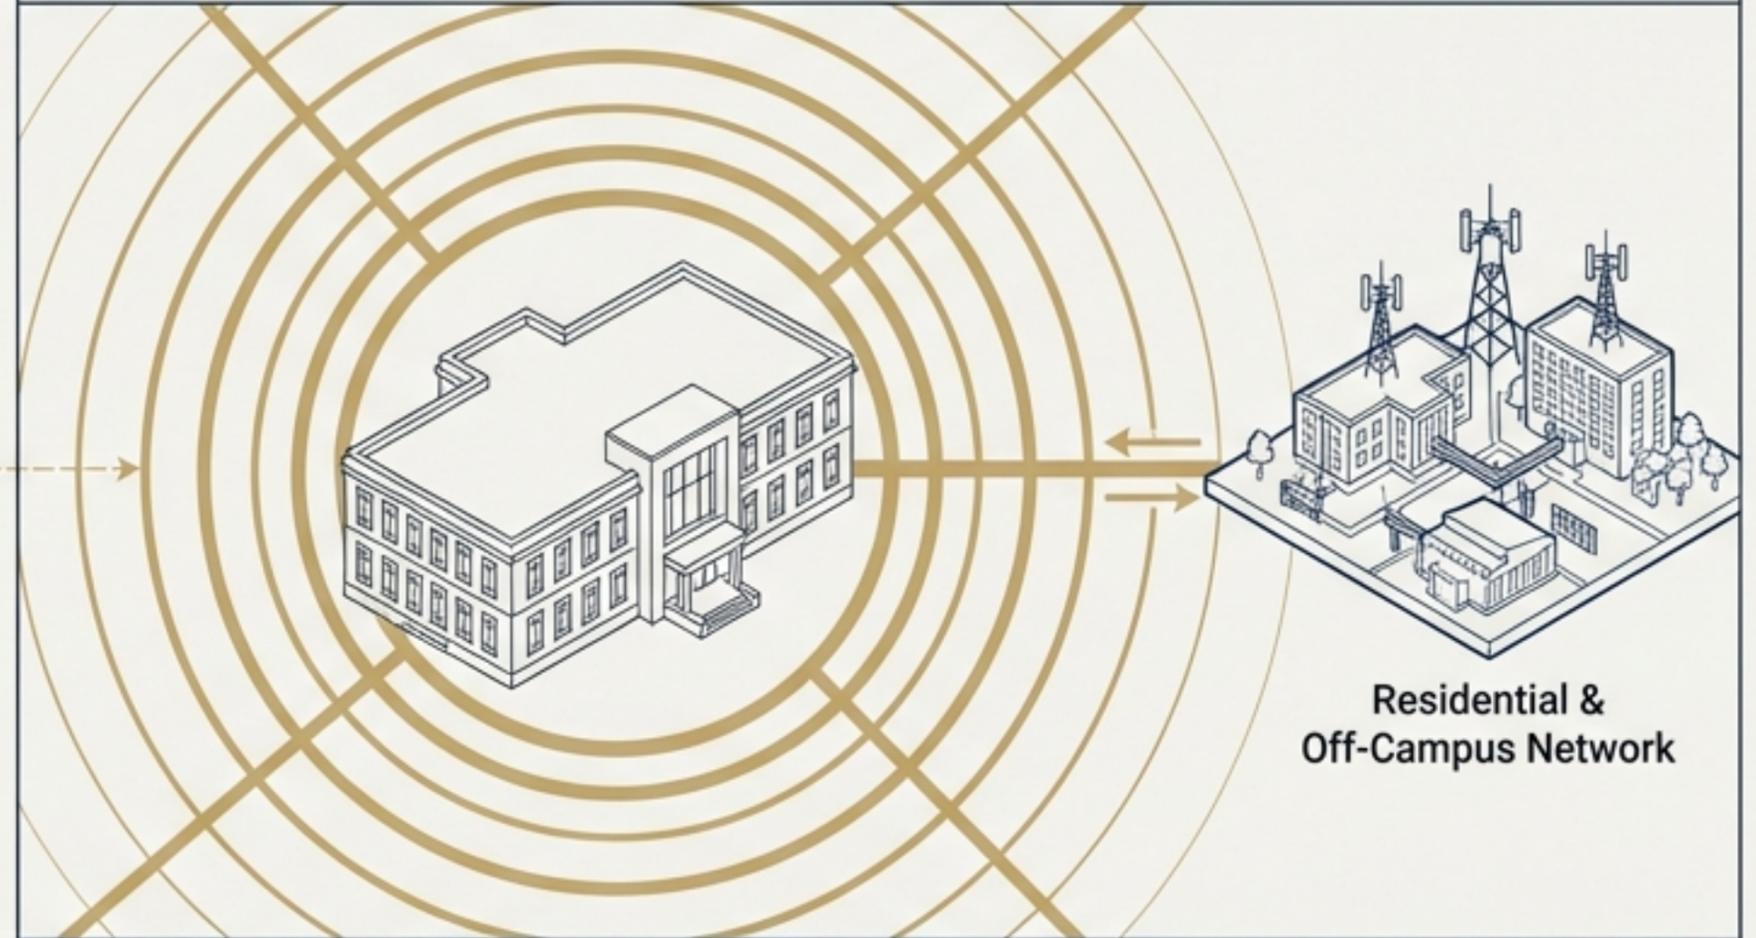

The Goal
Bring fast, reliable wireless networking to all administrative buildings.
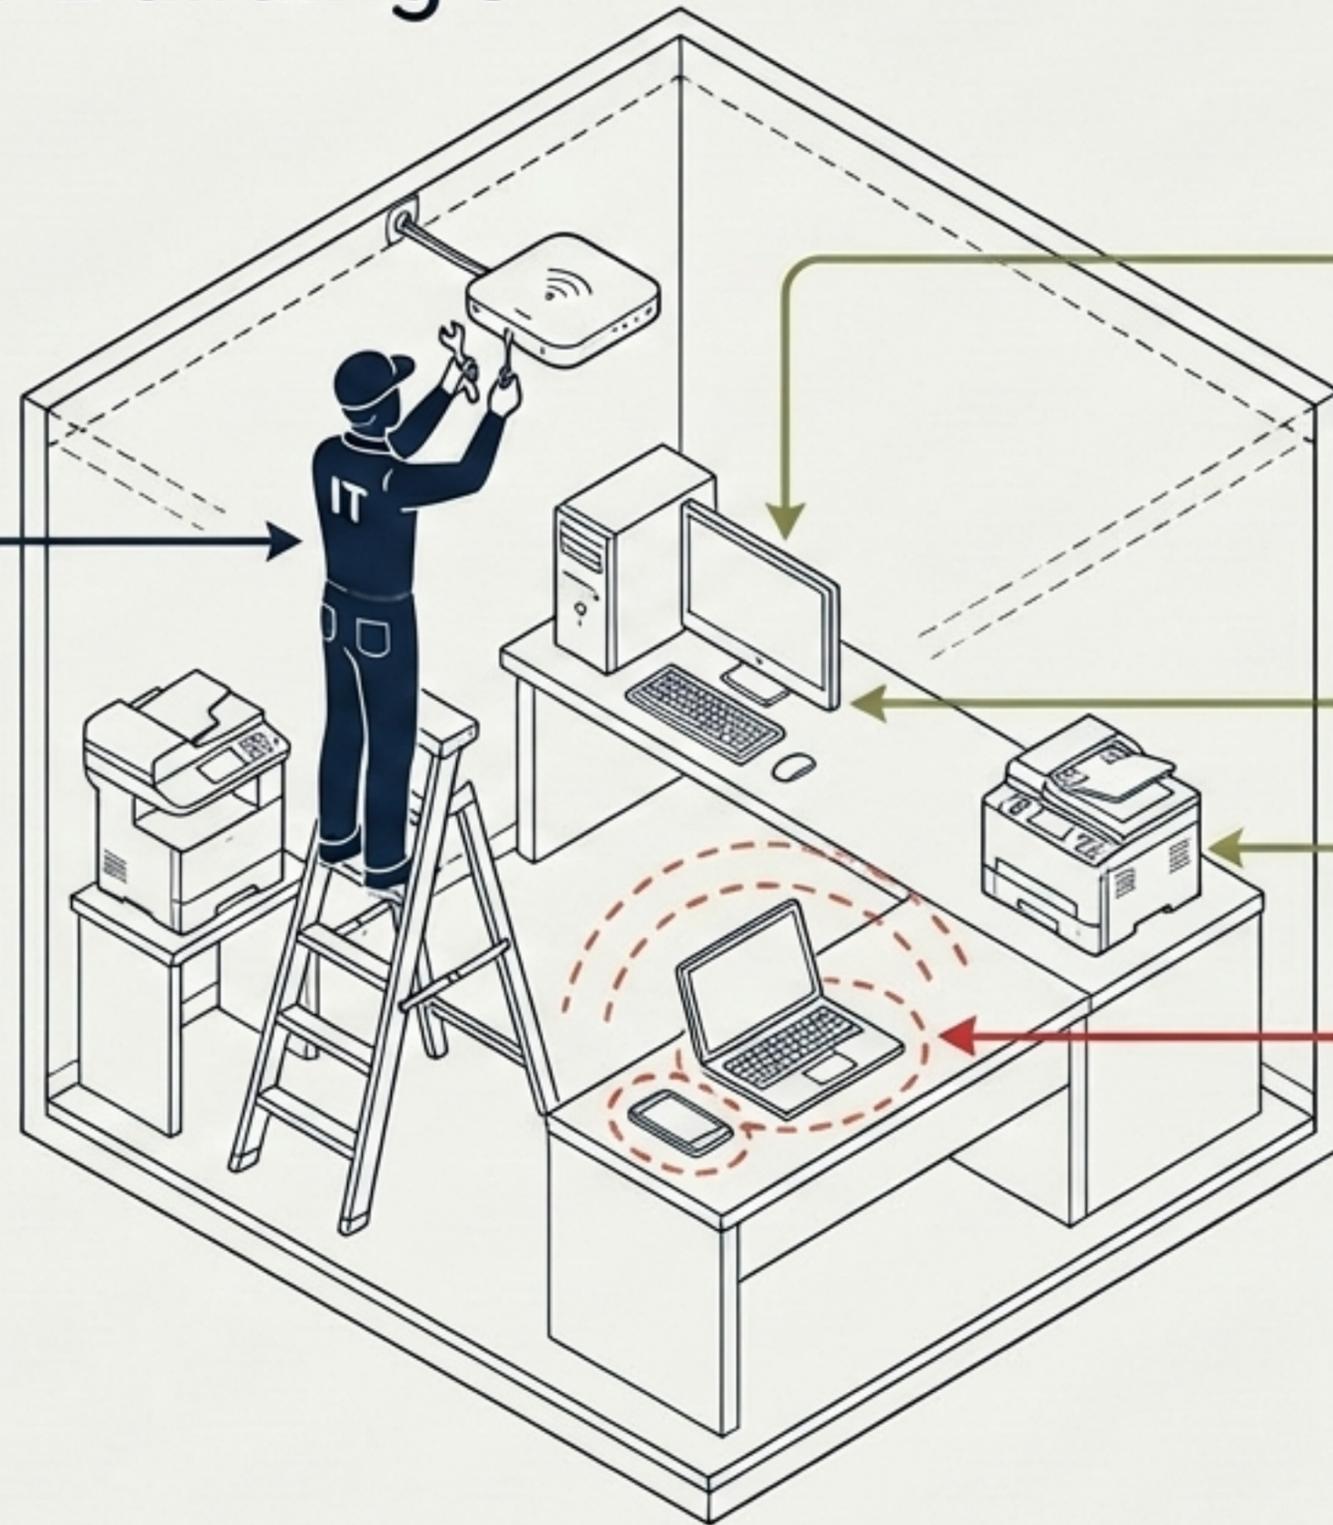

The Standard
Upgrading to the exact same high-speed technology currently powering residential halls and off-campus housing.

The Result
Maximized wireless coverage and seamless movement across the entire Lindenwood campus.

Anatomy of Your Building's Upgrade Day

Green Status: Uninterrupted

Wired Devices: Zero impact. Most computer stations and printers will remain fully functional.

Physical Presence: Active Work

Access Point Swaps: Installation techs will be upgrading ceiling WAPs. They may bring ladders/tools into into your area, but will take all due caution and leave spaces exactly as clean as they found them.
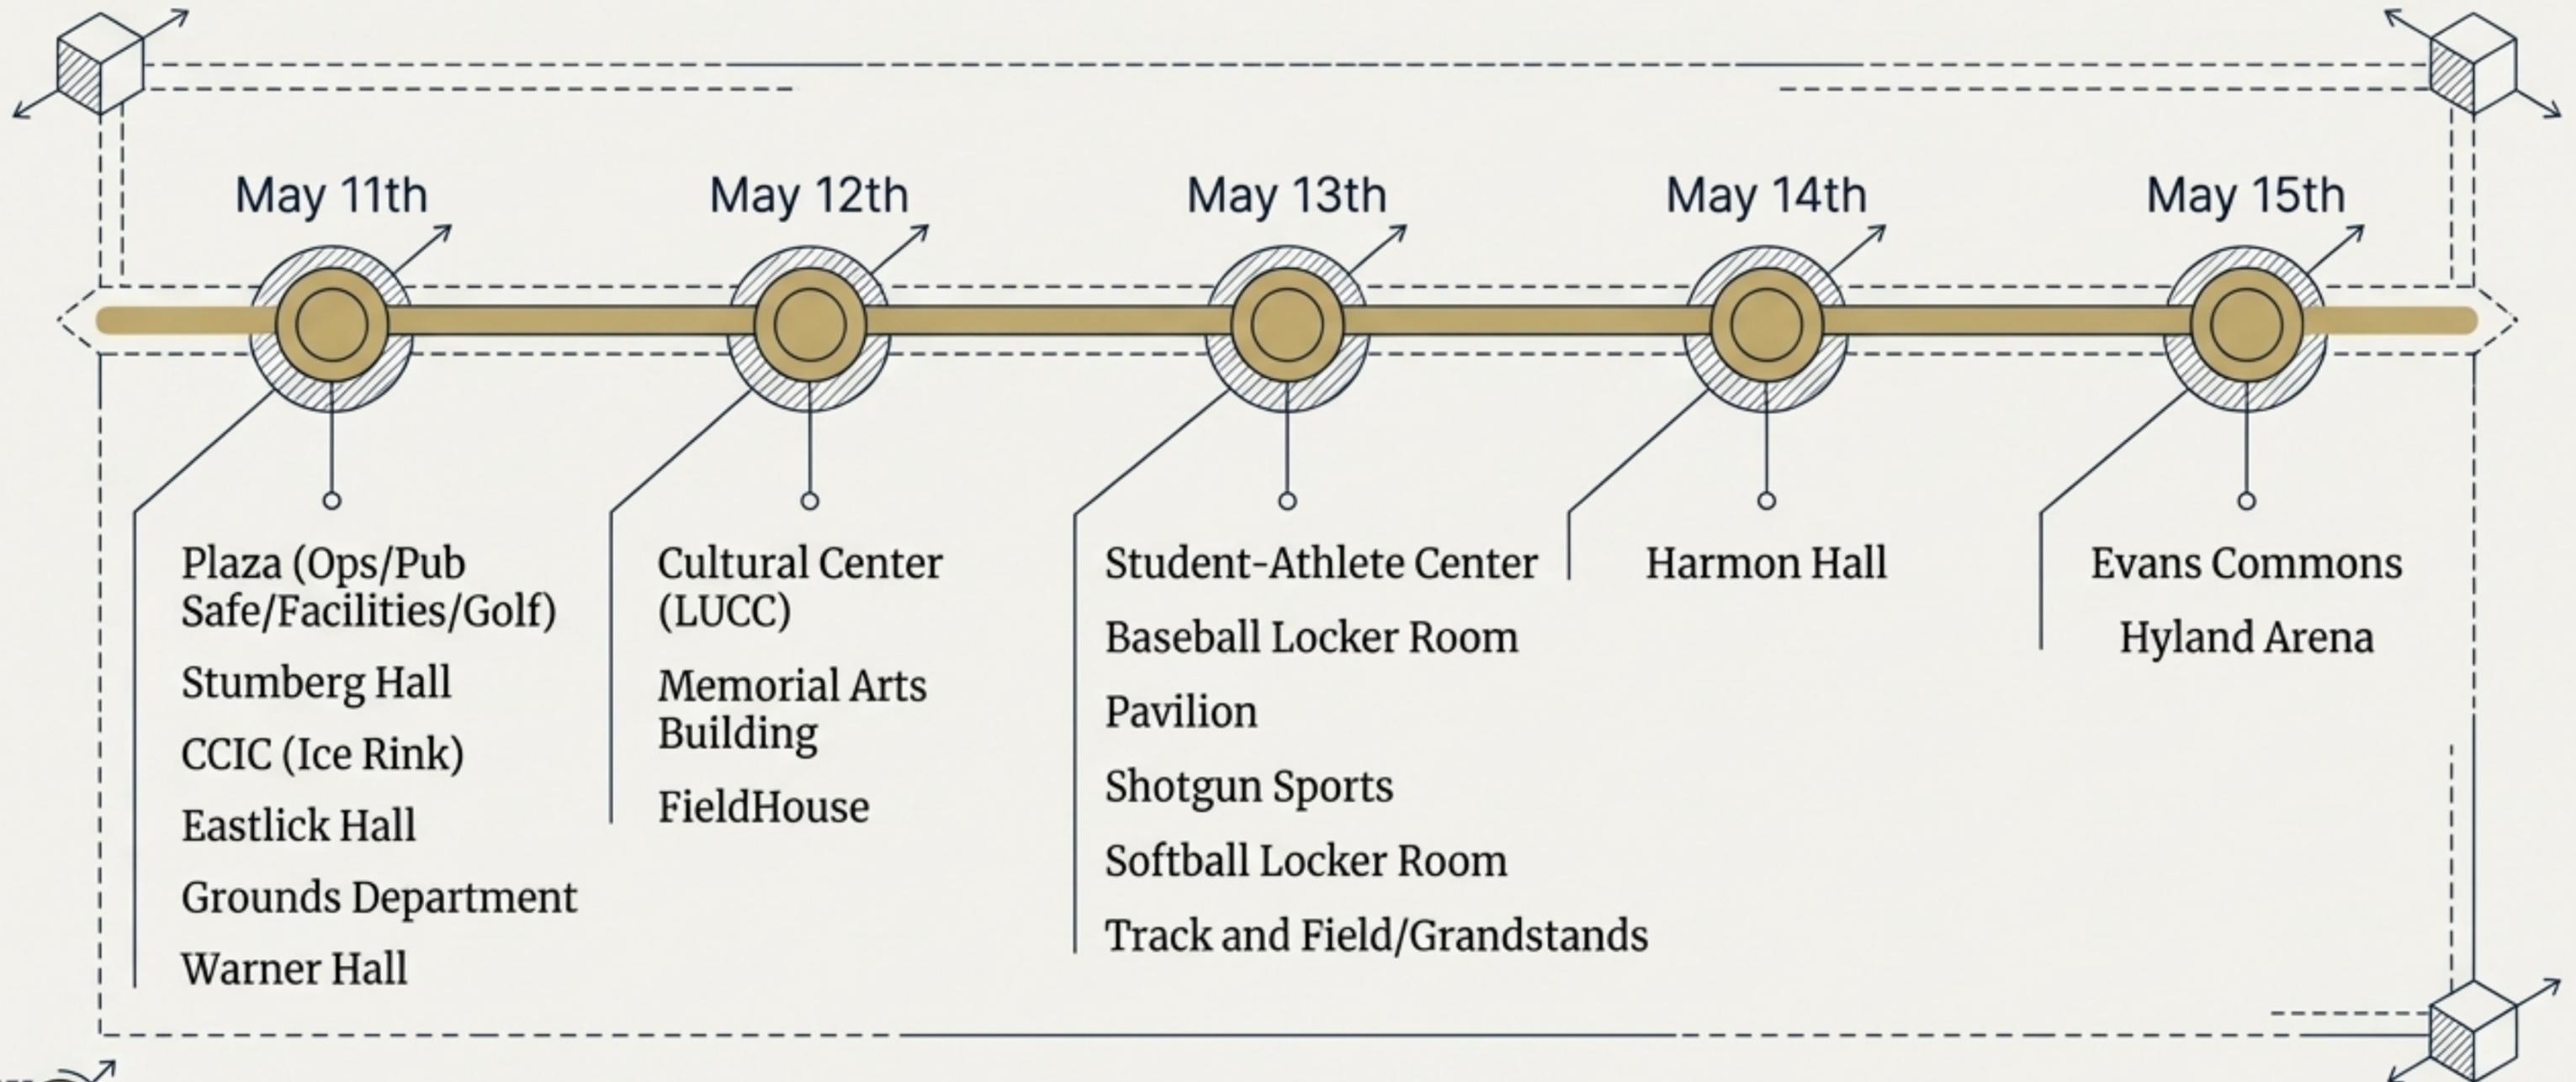

Red Status: Intermittent

Wireless Access: Expect intermittent Wi-Fi internet drops while your specific building is actively upgraded.

The Rollout Master Schedule: Week 2

May 18th	May 19th	May 20th	May 21st	May 22nd	May 26th
McCluer Hall Welcome Center	J. Scheidegger Center	Roemer Hall	Spellmann Center	Young Hall	Library & Academic Resources Center (LARC)
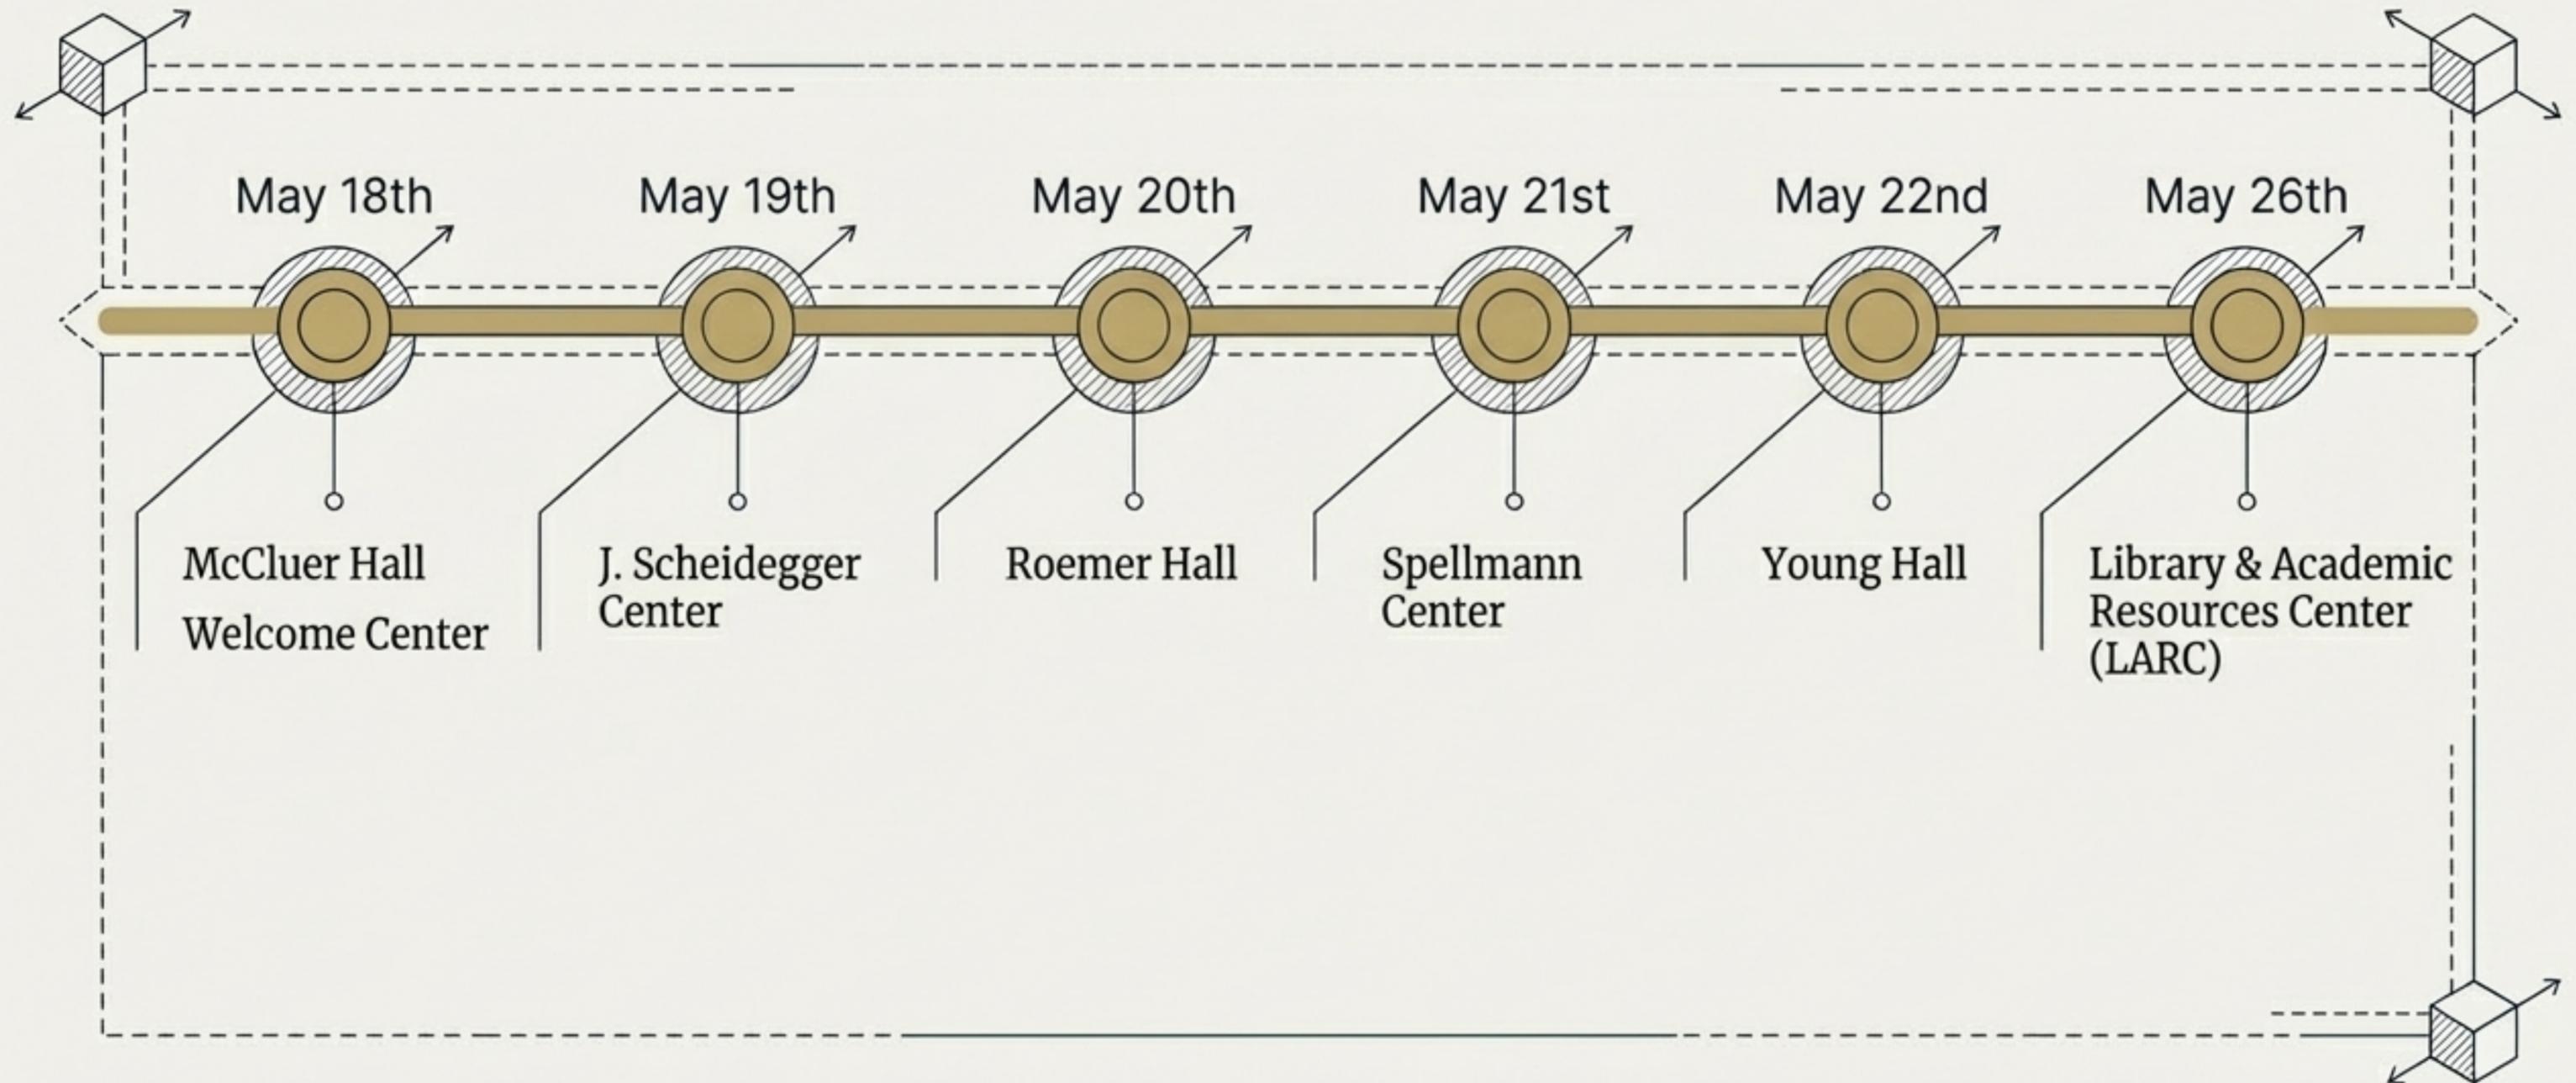

Your Upgrade Day Checklist

**Step 1:
Check the Map**

Find your building's exact date on the rollout schedule.

**Step 2:
Expect Friction**

On your date, anticipate intermittent wireless drops. Rely on wired desktop connections if critical.

**Step 3:
Reconnect**

Once techs finish, select the new "Lions" SSID on your wireless devices.

**Step 4:
Authenticate**

Enter your standard Lindenwood email and password to enjoy upgraded speeds.
